To whomsoever it may concern

I am writing this letter to thank GATEWAY VENTURES(CA) LTD & SEWON-VERTEX HEAVY INDUSTRY, for the successful completion of contract Number: A16-453-14-10-2016 For erection, welding, testing of Finger type slug catcher Tag.no. V-3000 with U-stamping in Chenarvskoye field for GTU-3 project from period Nov-16 to May-17. Within this 7 months of the execution phase, your company has shown the diligence, dedication & commitment to finish the work in time, which was a pre-requisite & greatly benefited other projects.

Even though there have been several hurdles due to worse climatic condition, your company was able to maintain the project execution efficiency. Your attention to the specifics of the project execution as well as proper scheduling has been instrumental for successful completion of project.

I would encourage to refer GATEWAY VENTURES(CA) LTD, Almaty, Kazakhstan & SEWON-VERTEX HEAVY INDUSTRY, Aktau, Kazakhstan to other organizations for similar scope & services.

I hope that we will continue to maintain our healthy relationship for reoccurrence of success in the future.

With Best Regards,

STEFFEN BÖLL
OPERATIONS MANAGER
(GTU-3 PROJECT ADMINISTRATION)
